

HARSHADEEP PEDDIREDDY

Full Stack Developer

Phone: +91-6281317289 | harshadeep.2323@gmail.com | linkedin.com/in/harsha-deep-92055b293 | GitHub | Portfolio

Location: Tanuku, Andhra Pradesh 534211, India

SUMMARY

Enthusiastic Full Stack Developer with hands-on experience in Java Full Stack (Spring Boot, MySQL) and MERN Stack (MongoDB, Express.js, React.js, Node.js) gained through internship and academic projects. Skilled in developing responsive web applications, designing RESTful APIs, and implementing authentication mechanisms. Strong foundation in data structures and algorithms with proven problem-solving abilities. Adept at collaborating with cross-functional teams and eager to contribute to building efficient and maintainable software solutions.

EXPERIENCE

Java Full Stack Intern

May 2025 – July 2025

Brainovision Solutions India Pvt. Ltd. (Remote)

- Built a full-stack Hotel Room Booking Application using Spring Boot and React, managing 5+ core modules including authentication, room management, and booking workflows.
- Developed and integrated 10+ REST API endpoints, enabling seamless frontend-backend communication and real-time booking operations.
- Applied JWT-based authentication and role-based access control across 3 user roles, securing protected routes and user-specific resources.
- Optimized MySQL database schema and refined queries, reducing data retrieval time by approximately 25%.

PROJECTS

Real-Time Chat Application | React.js, Node.js, Express.js, Socket.io, SQLite, JWT, Context API

[Project Link](#)

- Developed a full-stack real-time chat application supporting public chat rooms, private messaging, typing indicators, online presence, and read receipts.
- Created and incorporated 10+ REST API endpoints, enabling seamless frontend-backend communication and booking operations.
- Built real-time messaging features including message editing, deletion, notifications, and user status tracking.
- Designed and optimized a normalized SQLite database schema with pagination, edit history tracking, soft deletes, and indexed queries for improved performance.

AI-Powered Travel Planner SaaS | Next.js, Node.js, Express.js, MongoDB, Google OAuth

[Project Link](#)

- Built a full-stack SaaS application that generates personalized travel itineraries based on destination, trip duration, budget, and traveler preferences.
- Designed and executed RESTful APIs for trip creation, itinerary management, weather forecasting, hotel recommendations, and AI-powered travel chat assistance.
- Applied JWT authentication, Google OAuth login, and user-specific data isolation using MongoDB to ensure secure access control.
- Developed analytics dashboards, budget tracking, packing checklist management, PDF export, and public itinerary sharing features to enhance travel planning workflows.

EDUCATION

B.Tech in Computer Science (CSE-AI/ML)

Aug 2023 – Jul 2027

Sasi Institute of Technology & Engineering, Tadepalligudem

CGPA: 8.2/10

Board of Intermediate Education (M.P.C)

Jul 2021 – Jun 2023

Sasi Junior College, Tanuku

Percentage: 91.8

Secondary School Certificate

Jul 2020 – Jun 2021

Sasi (E.M) High School, Tanuku

CGPA: 9.7

SKILLS

Programming Languages: C, C++, Python, Java

Frontend: HTML5, CSS3, Bootstrap, TailwindCSS, JavaScript, TypeScript, React.js, Next.js, React Hooks, Context API

Backend & Database: Node.js, Express.js, REST APIs, CRUD Operations, Spring Boot, Spring Security, JPA, Hibernate

Database: SQLite, MySQL, MongoDB

Core CS: Data Structures and Algorithms, Object-Oriented Programming (OOP), Operating Systems, Computer Networks

Tools: Git, GitHub, Unix/Linux

ACHIEVEMENTS

- Solved **350+ coding problems** on CodeChef and achieved a **2-Star rating**, demonstrating strong problem-solving and algorithmic thinking.
